Adnan Al Ali

About me

My name is Adnan, and I'm starting my fifth year living in the dorm. I'm a first-year PhD candidate at Matfyz. I've been a member of the Dormitory Council for one year.

During my mandate...

- I communicated the news to you, wrote the meeting reports, and managed pets.
- I advocated for a balance between safety and convenience in the door
- I contributed to the creation and use of the e-mail newsletter.
- I found the time to meet with the dormitory head regularly.

I pledge to represent everyone, including:

- people from abroad (incl. Slovakia),
- people with disabilities,
- people from LGBTQI+ community.

My plans for the next mandate:

- making the front stair entrance barrier-free,
- solving the problem of people unloading other people's washing machines,
- most importantly: listening to your problems and finding solutions.
